3/20/2020

To all members and shooters in the ECSC skeet league.

Due to the conditions and restraints put on us by the COVID-19 Virus and the guidelines the government suggest we follow, we the ECSC E-board have decided to end the current 2019 – 2020 skeet season as of today for the rest of the season.

Since there are and could be other ties in the divisions with no chance to shoot them off, we have also decided that there will be no winners or loser this year. We will all loose with this Virus in many ways. So, we need to fight it as one team to overcome it and become winners to start the skeet league season again fresh and healthy next year.

There will be no trophies or plaques for any individual or teams because the season was incomplete. The league participation pins will be handed out at the annual meeting next year. We will use your individual averages established this year as your starting averages for next year.

There will also be no Spring League Shoot or Banquet this year.

Your safety and health come first so we hope you will all understand our decision.

Don Chapman
